LIBERTY COLLECTION

Originali interpretazioni di materiali, inediti accostamenti di formati e insolite armonie di colori testimoniano lo spirito creativo di Trend, vivace precursore di nuove tendenze.

Passato e futuro, tradizione e innovazione danno vita a soluzioni d'autore in sintonia con le più svariate espressioni della decorazione contemporanea.

La collezione Liberty celebra con modernità uno stile all'insegna del senso di libertà. Bagliori metallici muovono la superficie delle tessere di vetro tagliato a mano, mentre la profondità del materiale esalta la vivacità dei riflessi di luce, l'elemento decorativo più coinvolgente.

Original interpretations of materials, unconventional combinations of shapes and unusual colour harmonies convey the creative spirit of Trend, a lively forerunner of new trends.

Past and future, tradition and innovation create exclusive solutions able to embody the most various expressions of contemporary decoration.

The Liberty collection celebrates a style evoking the continuous pursuit of freedom. Metallic shimmering caresses the surface of hand-cut glass, blending with the brightness of reflected light enhanced by its depth which is its most fascinating decorative element.
